

DESIGN DIVISION II

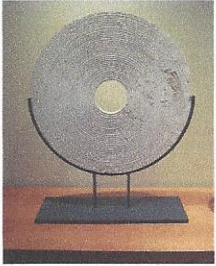

“The Gallery”

SECTION A

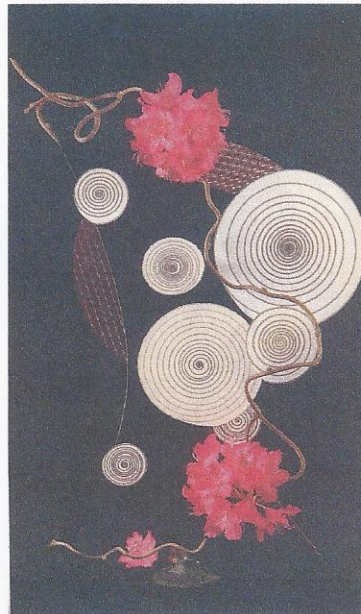

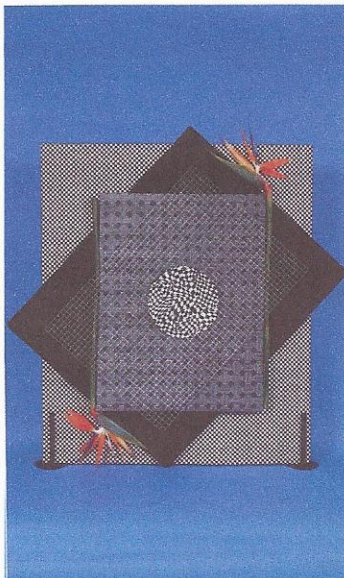

“Kaleidoscope”

Designer’s Choice

2) **“Modernism”** A Creative Op Art design to be staged on a table space 36” x 30” covered in white. Optional winged background supplied by committee. “An Abstract Creative Design (HB p 185-186) having implied visual motion” See HB p. 205 for more information.

You can find Op art anywhere. This is a sculpture I saw at a hotel. There are interesting shirts too. Check some books out of the library and see some different patterns available. Some are easy to draw yourself—like concentric circles. You might find an inspiring poster or piece of fabric that gets you thinking read the Handbook pages carefully. An Abstract Creative design cannot use flowers in a naturalistic way, just as forms shapes and lines.

The photos make these designs look flat. Imagine them in 3D
